 - c) nomination in Form SH-13, in duplicate, as provided under Section 72 of the Companies Act, 2013, in case they have not been sent earlier.
 - d) share certificate(s) held in multiple accounts in identical names or joint accounts in the same order of names, for consolidation of such shareholdings into one account.
14. In terms of requirements of Section 124(6) of the Companies Act, 2013 read with Investor Education and Protection Fund (IEPF) Authority (Accounting, Audit, Transfer and Refund) Amendment Rules 2017 ("the Rules"), the Company is required to transfer the shares, in respect of which the dividend remains unpaid or unclaimed for a period of seven consequent years to the IEPF account established by the Central Government. There are no shares in respect of which the dividend remains unpaid or unclaimed for a period of seven consequent years.

Any person whose shares have been transferred to the Fund, may claim the shares from the authority by submitting an online Application form IEPF-5 available on the website www.iepf.gov.in and after making an application in form IEPF-5, send the same duly signed by him along with requisite documents to the Company for verification of his claim.

15. In compliance with the provisions of Section 108 of the Act, read with Rule 20 of the Companies (Management and Administration) Rules, 2014, as amended from time to time, and Regulation 44 of the SEBI Listing Regulations, the Members are provided with the facility to cast their vote electronically, through the e-Voting services provided by NSDL, on all the resolutions set forth in this Notice. Members holding shares either in physical form or in dematerialized form, as on **August 03, 2020** i.e. cut-off date, may cast their vote electronically. The e-Voting module shall be disabled by NSDL for voting thereafter. Those Members, who will be present in the AGM through VC / OAVM facility and have not cast their vote on the Resolutions through remote e-Voting and are otherwise not barred from doing so, shall be eligible to vote through e-Voting system during the AGM.
16. The Members who have cast their vote by remote e-voting prior to the AGM may also attend / participate in the AGM through VC / OAVM but shall not be entitled to cast their vote again.
17. The Voting rights of members shall be in proportion to their shares of the paid-up equity share capital of the Company as on the Cut-off date **August 03, 2020**.
18. Mr. V Suresh, Practising Company Secretary holding certificate of practice (No.6032) issued by the Institute of Company Secretaries of India, has been appointed as the Scrutinizer to Scrutinize the voting process in a fair and transparent manner.
19. The Scrutiniser shall, immediately after the conclusion of voting at annual general meeting, unblock the votes cast through remote e-voting in the presence of at least two witnesses not in the employment of the Company. Scrutiniser shall within 48 hours (forty-eight) of conclusion of the meeting submit his report of the total votes cast in favour or against, if any, to the Chairman / Managing Director / Joint Managing Director / Chief Financial Officer / Vice President - Finance & Company Secretary of the Company.
20. The voting results of the Annual General Meeting will be declared and communicated to the Stock Exchanges and would also be displayed on the Company's website at www.tvstrakelinings.com.
21. Members whose names appear on the Register of Members / List of Beneficial Owners as on Cut-off date i.e **August 03, 2020** will be considered for the purpose of availing Remote e-Voting or Vote in the Annual General Meeting. A person who is not a member as on the cut-off date should treat this Notice for information purposes only.
22. Since the AGM will be held through VC / OAVM, the Route Map is not annexed in this Notice.

AUTOMOBILE INDUSTRY SCENARIO-2019-20

India's economic growth in 2019-20 was 4.2% with significant deceleration in the fourth quarter. The automotive industry demonstrated significant volatility and markedly different growth dynamics in each segment. While the CV segment displayed significant growth in the first half of the year unprecedented deceleration was recorded in the second half. Sales growth was muted in the 2W and non-existent for the passenger vehicle segment.

SBL'S SALES PERFORMANCE

Your company's net sales decreased by nearly 10% during the year 2019-20, as compared to financial year 2018-19, with a decrease of 18.2% in the domestic market and a marginal increase of 1.2% in the export market.

The suspension of operations and dispatches of goods from 24th of March 2020, due to the nation-wide lock down on account of COVID 19 outbreak contributed disproportionately to the decreased turnover. It would, however, be inaccurate to blame the entire decline on the pandemic and the restrictions that flowed from it. While the company has managed to be selected to supply friction for nearly every commercial vehicle model in the BS VI range, the poor national economic indicators, the reduction in demand for new haulage capacity, and the upcoming model changes caused a record fall in CV sales. This can be seen from the significant decrease of 28.9% in OE Sales.

Net sales for the year 2019-20 were therefore ₹ 253.62 crores as against ₹ 281.29 crores in the previous year.

EXPORTS

Exports constitute nearly half your company's revenue and while the US market demonstrated robust demand during the year under consideration, due to restrictions on dispatch of orders in the last 10 days of the FY, there was only a marginal increase of 1.2% in net Export sales during the FY 2019-20.

Net Foreign Exchange earned by your company in the year under review was ₹ 88.40 crores as against ₹ 84.02 crores in 2018-19.

Your Company was accredited with Two Star Export House status in accordance with the provisions of Foreign Trade Policy, 2015-2020, with a certificate issued by the Director General of Foreign Trade, Chennai for a period of five years from 9th March, 2018 to 8th March, 2023.

EFFORTS & INITIATIVES TAKEN

Measures taken to reduce Raw material loss in production and energy conservation continue to yield benefits.

Your Company continues to take steps to increase share of existing customers, and to add new customers and new products both in Domestic and Export markets.

DIVIDEND

It was expected that Your Company would close the year with significantly improved profits, considering first half revenue and PBT trends. However, lack lustre second-half domestic CV demand coupled with suspension of operations and dispatches in the last 10 days of March 2020, has impacted the performance of the year resulting in PBT of ₹ 300.13 lacs for the FY 2019-20.

Your Directors are constrained to skip Dividend for the year, keeping in mind uncertain times ahead. Your Directors assure you that various steps are being taken to improve the performance of the Company.

OUTLOOK FOR 2020-21 IN THE CONTEXT OF COVID-19 PANDEMIC

The COVID-19 Pandemic and consequent lockdowns of the Nation has caused a significant shock to the Indian Economy and various rating agencies estimate that India may witness GDP contraction of 5% in 2020-21 and that it may take up to two years before normal growth is restored.

The nationwide lockdown declared from 23rd March 2020 led to stoppage of operations in your company resulting in loss of production and dispatch in the last week of March 2020 impacting the performance of the Company.

With restrictions for resumption of operations from commencement of 2nd lockdown, concerted efforts were made to obtain necessary approvals from the Government to resume operations at the earliest possible date to meet customer orders. Extraordinary efforts were made to safely mobilize manpower and resume operations as soon as possible wherever possible. With continuing Governmental restrictions on manpower, and slow resumptions of operation by our domestic customers, operations are focused mainly on catering to existing Export orders and reduced OE& Domestic After Market orders.

The short term outlook for the Indian economy is rather grim and domestic sales are expected to decline substantially which will have a knock on effect on your company's production & sales. SBL has built its exports to nearly 50% of its revenue which has helped sustain operations at tolerable utilization levels from May 2020.

In order to cope with this unprecedented crisis, your company has taken a number of steps to reduce fixed costs through right sizing the operation and improvements in Machines& Methods.

SUNDARAM BRAKE LININGS LIMITED

With economic visibility significantly limited by unprecedented uncertainty, agile and dynamic responses will be demanded to manage the volatile situation. Your company will take all necessary measures to handle the impact of the economic deceleration and underutilization of capacity, and to staunch and contain losses in the current financial year. At the same time, we will continue with essential modernization and product development to ensure that we emerge from this COVID-19 crisis with improved capabilities and renewed vigor, purpose, and resolve.

RESEARCH AND DEVELOPMENT:

Your Company's R&D facility located in Padi has been recognized as an approved R&D unit by the Department of Scientific & Industrial Research (DSIR), Ministry of Science & Technology, Government of India, New Delhi, and the recognition is valid up to 31st March 2021.

During the year under review, thrust was given for development of new products, viz., Commercial Vehicle Linings & Clutch Facings both for new and existing customers. Efforts for achieving reduction in energy costs were continued in the year under review.

The total expenditure for R&D incurred in 2019-20 was ₹ 12.16 crores as against ₹ 9.96 crores in the previous year.

PUBLIC DEPOSITS

Your Company does not hold any deposit from the public.

BOARD MEETINGS

The Board of Directors of the Company met four times during the financial year.

Audit Committee and Stakeholders' Relationship Committee of the Board of Directors met four times during the year.

Nomination and Remuneration Committee met three times during the year and Corporate Social Responsibility Committee of the Board of Directors met once during the year.

DIRECTORS

During the year, the Board has filled the vacancy caused by demise of Late chairman, Mr. K Mahesh by appointing Ms. Shobhana Ramachandran as Director of the Company.

Mr. K Ramesh, Director tendered his resignation w.e.f 12th August 2020 and the resultant vacancy was filled by the Board of Directors on 12th February 2020 by appointing Ms. Shripriya Mahesh Ramanan as Director of the Company.

Their appointment requires approval of shareholders in the ensuing Annual General Meeting. The resolutions for approval of appointment of Ms. Shobhana Ramachandran & Ms. Shripriya Mahesh Ramanan as Directors are included in the notice of the Annual General Meeting.

Mr. Krishna Mahesh, Director of the Company who retires by rotation and being eligible for re-appointment offers himself for re-appointment as Director of the Company for approval by the Shareholders of the Company by an Ordinary Resolution.

DECLARATION FROM INDEPENDENT DIRECTORS ON ANNUAL BASIS

The Company has received necessary declaration from all Independent Directors of the Company under Section 149(7) of the Companies Act, 2013 that the Independent Directors of the Company meet with the criteria of their independence laid down in Section 149 (6) of the Act. MANAGEMENT DISCUSSION AND ANALYSIS REPORT - 2020

Industry and Company Trend

Automobile industry’s annual production volume was 263.62 lakh units for the year 2019-20 as compared to 309.15 lakh units in the previous financial year indicating a de-growth of 14.7% in volume.

Automobile industry’s annual sales volume was at 263.14 lakh units for the year 2019-20 as compared to 308.97 lakh units for the previous financial year indicating an overall de-growth of 14.8%.

The above de-growth is considered to be created out of demand- supply factor due to combination of several factors like axle load increase, increase in vehicle operation time as a result of removal of various check points after GST implementation, BS VI implementation from April 2020, etc. Further the nation-wide lockdown imposed during the last week of the financial year due to COV 19 situation also led to loss of production.

The main de-growth happened in the Medium & Heavy Commercial Vehicle Segment, both in Production and Sales, which registered a de-growth of 47.3% & 43.3% respectively, when compared to previous year. Light Commercial segment has also registered a de-growth in both production & sales volume at 22.5% & 20.8% respectively, as compared to previous year.

After years of continued growth, the Passenger Vehicle segment has registered a de-growth in both production and Sales at 14.8% and 14.9% respectively. While Three Wheeler segment witnessed de-growth of 10.6% and 10.2% in Production and Sales respectively, two wheeler segment’s de-growth was 14.2% and 14.4% in Production and Sales respectively.

Total	309.15	263.56	- 14.7%	308.97	263.08	- 14.9%

Source : ACMA

Exports in Automobile sector for the year 2019-20 registered a growth of 2.9% as compared to previous year 2018-19, with growth of around 7% in the Two Wheeler Vehicle segment. All the other segments registered de-growth, viz., M & HCV segment @ 50.4%, LCV segment @ 28.7%, Three wheeler segment @ 11.5%. The Passenger Vehicle exports recorded a near static level with a growth of a marginal 0.17%.

Your company's net sales had a de-growth of around 10% during the year 2019-20, as compared to financial year 2018-19, mainly due to de-growth of 18.2% in the Domestic market and a marginal growth of 1.2% in Export segment.

The quantum of de-growth would have been comparatively lower, but for the abrupt closing of activities from 24th of March 2020, due to nation-wide lock down due to COVID-19 situation.

Opportunities

India remains a major auto exporter and continues to have strong export growth expectations in the medium term. Further with the planned introduction of BS VI emission norms compliant vehicles, India will become more visible in the Global Market.

Your company's focus has been on the upcoming BS VI compliant model related OEM approvals and expected to reap the benefits in the coming year. Your company will continue to focus in the two wheeler industry and the After Market Segment, while retaining the strengths in the Export Market Segment.

Threats

Competition from New Friction Material Manufacturers in organized sector is continuing and is expected to increase.

The above coupled with Friction Material Manufacturers (both in the organized as well as in the unorganized sector), still providing low priced asbestos linings for Medium & Heavy Commercial Vehicle applications, continues to be a great challenge for Your Company.

Risk and concerns

Increasing Employees' Cost is a major challenge for your company to deal with particularly in the wake of Covid-19 Lock down and Your Company will continue to focus on improvement in Productivity and Automation.

The continuing COVID 19 pandemic situation remains a huge risk for Your company.

Internal Control System

The Company continues to maintain a system of internal control including adequate monitoring procedures. The internal auditors ensure operational control at various locations of the Company on a regular basis. Any irregularity or significant issues are brought to the attention of the Audit Committee of the Board and Managing Director of the Company and countermeasures are taken for complying with the system.

Quality and Quality Management Systems

Your Company is continuing its focus on improvements to sustain quality management systems through Total Employee Involvement at all levels with a view to achieve enhanced level of customer satisfaction in domestic as well as Overseas markets. Your company continues to closely monitor and focus on various cost reduction activities and cost control initiatives to achieve planned targets during the year.

Human Resources / Industrial Relations

The Industrial Relations in all four plants of the Company continued to be cordial. Retention of talent remains a great challenge and your company is taking various HR initiatives in this area. The total number of employees on roll as on 31st March 2020 in all the Plants was 1,347.

Accounting Treatment

The Company has followed all the applicable Indian Accounting Standards (Ind AS) issued by the Ministry of Corporate Affairs (MCA) in the preparation of financial statements.

5 Information Other than the Financial Statements and Auditor's Report Thereon

- 5.1 The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in Board's Report, but does not include the financial statements and our auditor's report thereon.
- 5.2 Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- 5.3 In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

6 Responsibilities of Management and Those Charged with Governance for the Financial Statements

- 6.1 The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
- 6.2 In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
- 6.3 Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

7 Auditor's Responsibilities for the Audit of the Financial Statements

- 7.1 Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
- 7.2 As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
- a. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - b. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
 - c. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - d. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - e. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 7.3 We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- 7.4 We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
- 7.5 From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE - B TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Sundaram Brake Linings Limited ("the Company") as of March 31, 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

1. Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

2. Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

3. Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for

external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

4. Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

5. Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The Company has its primary listings on the BSE Limited and National Stock Exchange of India Limited, in India. The company manufactures asbestos free friction materials. The company has five manufacturing plants located in Tamil Nadu.

The financial statements were approved by the Board of Directors and authorised for issue on June 27, 2020.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation:

These financial statements are prepared in accordance with Indian Accounting Standard (Ind AS), under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act, 2013 ('the Act') (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The IndAS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or are vision to an existing accounting standard requires a change in the accounting policy hitherto in use

The amounts disclosed in the financial statements and notes have been rounded off to nearest lakhs as per the requirement of schedule III, unless otherwise stated.

The financial statements are presented in Indian currency (INR), being the functional and presentation currency. Being the currency of the primary economic environment in which the company operate.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current - non-current classification of assets and liabilities.

(b) Foreign Currency Translation and transactions:

Initial Recognition

On initial recognition, all foreign currency transactions (other than advance receipt or payment of foreign currency) receipts or payments are recorded by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction. The foreign currency transactions received or paid in advance are accounted at the date of receipt or payment of foreign currency.

Subsequent Recognition

As at the reporting date, non-monetary items which are carried at historical cost and denominated in a foreign currency are reported using the exchange rate at the date of the transaction. All non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were the fair value measured.

All monetary assets and liabilities in foreign currency are restated at the end of accounting period. Exchange differences on restatement of other monetary items are recognised in the Statement of Profit and Loss.

NOTES TO FINANCIAL STATEMENTS (Contd.)

(c) Property, Plant and Equipment (PPE):

Freehold land is carried at historical cost. All other items of Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any.

All property, plant and equipment are initially recorded at cost. Cost includes the acquisition cost or the cost of construction, including duties and taxes (other than those refundable), expenses directly related to the location of assets and making them operational for their intended use and, in the case of qualifying assets, the attributable borrowing costs (refer note no. 2(p) below).

Subsequent expenditure relating to property, plant and equipment is capitalised only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value at 5% of Cost.

Depreciation on tangible fixed assets has been provided on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the Statement of Profit and Loss.

For transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognized as of April 1, 2015 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

Capital work in progress represents projects under which the property, plant and equipment's are not yet ready for their intended use and are carried at cost determined as aforesaid.

(d) Investment properties:

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in profit or loss as incurred.

The Company depreciates building component of investment property on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013

For transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognized as of April 1, 2015 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

(e) Intangible Assets:

Intangible assets are initially measured at acquisition cost including any directly attributable costs of preparing the asset for its intended use.

Expenditure on projects which are not yet ready for intended use are carried as intangible assets under development.

Intangible assets with finite lives are amortized over their estimated useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired.

Amortisation:

Intangible assets with finite life are amortised over their estimated useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation periods are reviewed and impairment evaluations are carried out at least once a year. Intangible assets are amortised on straight-line method over ten years.

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use of disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, and are recognized in the Statement of Profit and Loss when the asset is derecognized.

For transition to Ind AS, the Company has elected to continue with carrying value of all of its intangible assets recognized as of April 1, 2015 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

(f) Impairment of assets:

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in the Statement of Profit and Loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in Statement of Profit and Loss.

(g) Leases:

1. The Company as a lessee

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether : (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

NOTES TO FINANCIAL STATEMENTS (Contd.)

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities include these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cashflows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

2) The Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease

Lease-hold land:

Leasehold land that normally has a finite economic life and title which is not expected to pass to the lessee by the end of the lease term is treated as an operating lease.

The payment made on entering into or acquiring a leasehold land is accounted for as leasehold land use rights (referred to as prepaid lease payments in Ind AS 17 "Leases") and is amortized over the lease term in accordance with the pattern of benefits provided.

SUNDARAM BRAKE LININGS LIMITED

NOTES TO FINANCIAL STATEMENTS (Contd.)

(h) Inventories:

Inventories are carried at the lower of cost (computed on a Weighted Average basis) or net realisable value. Cost include the cost of fair value of consideration paid including duties and taxes (other than those refundable), inward freight, and other expenditure directly attributable to the purchase. Trade discounts and rebates are deducted in determining the cost of purchase.

Inventories:

Stores and Spares and Tools	At weighted average cost
Components	At weighted average cost
Work in progress	At Cost
Finished Goods	At Lower of cost and net realisable value
Stock in trade	At Cost

Stocks of stores, spares and tools, components and stock in trade are valued at cost and not written down below cost to net realisable value since the finished products and the services in which they are to be incorporated are expected to be sold / billed at or above cost.

(i) Financial Instruments:

Financial Assets:

Classification

The Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income ('FVTOCI') or fair value through profit or loss ('FVTPL') on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

Initial Recognition and measurement:

All financial assets (not measured subsequently at fair value through profit or loss) are recognised initially at fair value plus transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Statement of Profit and Loss. The losses arising from impairment are recognised in the Statement of Profit and Loss. This category generally applies to loans and advances, deposits, trade and other receivables.

Debt instruments included within the fair value through profit and loss (FVTPL) category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

NOTES TO FINANCIAL STATEMENTS (Contd.)

De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either:
 - (a) the Company has transferred substantially all the risks and rewards of the asset, or
 - (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

In accordance with Ind-AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, and bank balance.
- b) Trade receivables.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables which do not contain a significant financing component.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each Balance Sheet date, right from its initial recognition.

Financial Liabilities

Classification

The Company classifies all financial liabilities as subsequently measured at amortised cost, except for financial liabilities at fair value through profit or loss. Such liabilities, including derivatives that are liabilities, shall be subsequently measured at fair value.

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term.

Gains or losses on liabilities held for trading are recognised in the Statement of Profit and Loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in Ind-AS 109 - "Financial Instruments" are satisfied. For liabilities designated as Fair Value through Profit and Loss ("FVTPL"), fair value gains / losses attributable to changes in own credit risk are recognized in Other Comprehensive Income ("OCI"). These gains / loss are not subsequently transferred to the Statement of Profit and Loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the Statement of Profit and Loss. The Company has not designated any financial liability as at fair value through profit or loss.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the Statement of Profit and Loss when the liabilities are derecognised.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the Effective Interest Rate ('EIR'). The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

This category generally applies to interest-bearing loans and borrowings.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(j) Provisions and contingent liabilities and Contingent Assets:

Provisions are recognized, when there is a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources will be required to settle the obligation, and when a reliable estimate of the amount of the obligation can be made. If the effect of the time value of money is material, the provision is discounted using a pre-tax rate that reflects current market assessments of the

NOTES TO FINANCIAL STATEMENTS (Contd.)

time value of money and the risks specific to the obligation and the unwinding of the discount is recognised as interest expense.

Contingent liabilities are recognized only when there is a possible obligation arising from past events, due to occurrence or non-occurrence of one or more uncertain future events, not wholly within the control of the Company, or where any present obligation cannot be measured in terms of future outflow of resources, or where a reliable estimate of the obligation cannot be made. Obligations are assessed on an ongoing basis and only those having a largely probable outflow of resources are provided for.

Contingent assets are not recognized in the financial statements.

(k) Equity instruments:

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognized at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognized and deducted directly in equity. No gain or loss is recognized in Statement of Profit and Loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

(l) Revenue recognition:

a) The Company derives revenues primarily from sale of products. Revenue is recognized when the promised goods are transferred to the customer and the customer obtains control over them. In the sale of goods, control is typically transferred to the customer on delivery to the transporter. Invoicing usually takes place at the same time. Revenue is measured at the transaction price that is expected to be received as consideration and adjusted for volume discounts, price concessions and incentives or increased / decreased by agreed and estimated price adjustments, if any. Revenue also excludes taxes collected from customers.

Ind AS 115 requires Company to present a contract as an asset or a liability based on the relationship between its performance and the customer's payment. Contract assets (Trade receivable) recognized in the statement of financial position represent the Company's right to receive consideration for goods already transferred to customers. In contrast, contract liabilities (Advance received from customers/) are presented when the Company has already received consideration from customers for goods still to be transferred and amount payable on volume discounts, price concessions and incentives or increased/decreased by agreed and estimated price adjustments.

Use of significant judgement in revenue recognition

Judgement is required to determine the transaction price for the contract. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, price concessions, incentives and increased / decreased by agreed and estimated price adjustments. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period.

b) Dividends are accounted when the right to receive is established.

c) Interest income is accrued on a time proportion basis using the effective interest rate method.

SUNDARAM BRAKE LININGS LIMITED

NOTES TO FINANCIAL STATEMENTS (Contd.)

(m) Government Grants:

Government grants are recognised in the period to which they relate when there is reasonable assurance that the grant will be received and that the Company will comply with the attached conditions

Government grants are recognised in the Statement of Profit and Loss on a systematic basis over the periods in which the Company recognises as expenses the related costs for which the grants are intended to compensate.

(n) Employee Benefits:

(i) Short-term Obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Other benefits, comprising of discretionary Long Service Awards and Leave Travel Allowances, are determined on an undiscounted basis and recognised based on the entitlement thereof.

(ii) Other long-term employee benefit obligations

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Re-measurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(iii) Post-employment obligations

The Company operates the following post-employment schemes:

- Retirement benefits in the form of Provident Fund are a benefit obligations scheme and the contributions are recognised, when the contributions to the respective funds are due. Both the employees and the Company make monthly contributions to the Sundaram Brake Linings Limited Employees Provident Fund equal to a specified percentage of the covered employee's salary. Company also contributes to a government administered pension fund on behalf of its employees. The interest rate payable by the trust to the beneficiaries every year is being notified by the Government. The Company has an obligation to make good the shortfall, if any, between the return from the investments of the trust and the notified interest rate.
- Gratuity liability is defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each financial year. Re measurement in case of defined benefit plans gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income and they are included in retained earnings in the statement of changes in equity in the balance sheet.

NOTES TO FINANCIAL STATEMENTS (Contd.)

- Superannuation: Certain employees of the company are participants in a defined contribution plan. The Company has no further obligations to the Plan beyond its monthly contributions which are periodically contributed to a trust fund, the corpus of which is invested with the Life Insurance Corporation of India
- Compensated absences are provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each financial year. Re measurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.
- The amount of Non-current and Current portions of employee benefits is classified as per the actuarial valuation at the end of each financial year.

(o) Income Taxes:

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

(i) Current tax:

Current Tax expenses are accounted in the same period to which the revenue and expenses relate. Provision for current income tax is made for the tax liability payable on taxable income after considering tax allowances, deductions and exemptions determined in accordance with the applicable tax rates and the prevailing tax laws.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and the liability on a net basis.

(ii) Deferred tax :

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in financial statements, except when the deferred income tax arises from the initial recognition of goodwill, an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profits or loss at the time of the transaction.

Deferred income tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences in the foreseeable future and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each Balance Sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the Balance Sheet date.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

SUNDARAM BRAKE LININGS LIMITED

NOTES TO FINANCIAL STATEMENTS (Contd.)

Minimum Alternative Tax ("MAT") credit is recognized as an asset only when and to the extent there is reasonable certainty that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a reasonable certainty to the effect that the Company will pay normal income tax during the specified period.

(p) Borrowing Costs:

General and specific borrowing costs directly attributable to the acquisition or construction of qualifying assets that necessarily takes a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Borrowing costs consist of interest and other costs that the company incurs in connection with the borrowing of funds.

Interest income earned on temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization. Borrowing costs that are not directly attributable to a qualifying asset are recognised in the Statement of Profit or Loss using the effective interest method.

(q) Cash Flow Statement:

Cash flows are reported using the indirect method, whereby profit / (loss) before tax is adjusted for the effects of transactions of no cash nature and any deferrals or accruals of past or future cash receipts or payments. Cash flow for the year are classified by operating, investing and financing activities.

(r) Earnings Per Share:

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post-tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year including potential equity shares, if any, on compulsory convertible debentures. Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post-tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

(s) Segment Reporting:

The Company identifies operating segments based on the internal reporting provided to the chief operating decision-maker.

The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the committee that makes strategic decisions.

The accounting policies adopted for segment reporting are in line with the accounting policies of the Company. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment.

Inter-segment revenue is accounted on the basis of transactions which are primarily determined based on market / fair value factors. Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on reasonable basis have been included under "unallocated revenue / expenses / assets / liabilities".

NOTES TO FINANCIAL STATEMENTS (Contd.)

Note 3. Critical accounting estimates and judgments

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, disclosures of contingent liabilities at the date of the financial statements and the reported amounts of revenue and expenses for the years presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are continually evaluated. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements pertain to:

- **Useful lives of property, plant and equipment and intangible assets:** The Company has estimated useful life of each class of assets based on the nature of assets, the estimated usage of the asset, the operating condition of the asset, past history of replacement, anticipated technological changes, etc. The Company reviews the carrying amount of property, plant and equipment and Intangible assets at the Balance Sheet date. This reassessment may result in change in depreciation expense in future periods.
- **Impairment testing:** Property, plant and equipment and Intangible assets are tested for impairment when events occur or changes in circumstances indicate that the recoverable amount of the cash generating unit is less than its carrying value. The recoverable amount of cash generating units is higher of value-in-use and fair value less cost to sell. The calculation involves use of significant estimates and assumptions which includes turnover and earnings multiples, growth rates and net margins used to calculate projected future cash flows, risk-adjusted discount rate, future economic and market conditions.
- **Income Taxes:** Deferred tax assets are recognized to the extent that it is regarded as probable that deductible temporary differences can be realized. The Company estimates deferred tax assets and liabilities based on current tax laws and rates and in certain cases, business plans, including management's expectations regarding the manner and timing of recovery of the related assets. Changes in these estimates may affect the amount of deferred tax liabilities or the valuation of deferred tax assets and their tax charge in the statement of profit or loss.

Provision for tax liabilities require judgements on the interpretation of tax legislation, developments in case law and the potential outcomes of tax audits and appeals which may be subject to significant uncertainty. Therefore the actual results may vary from expectations resulting in adjustments to provisions, the valuation of deferred tax assets, cash tax settlements and therefore the tax charge in the statement of profit or loss.

- **Defined benefit plans:** The cost of the defined benefit plans and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, etc. Due to the complexities involved in the valuation and its long term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each Balance Sheet date.
- **Impact of COVID-19:** The spread of COVID-19 has impacted global economic activity as has been witnessed in several countries. There have been severe disruptions in businesses in India during the Lock down period. The Company has resumed production and Export and domestic sales are picking up. The situation is evolving and the assessment of impact due to COVID-19 is a continuous process, given the uncertainties.

Management has conducted the possible impact of known events arising from COVID-19 pandemic in the preparation of these financial statements and has analysed events post Balance Sheet date and believes that there will not be any material effect on the carrying values of the assets and liabilities of the Company on the reporting date and there is no change in its ability to continue as a Going Concern.

- **Standards issued but not yet effective:**

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2020.

NOTES TO FINANCIAL STATEMENTS (Contd.)

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

a. Capital Management

The objective of the Company's capital management structure is to ensure sufficient liquidity to support its business and provide adequate return to shareholders. Management monitors the long term cash flow requirements including externally imposed capital requirements of the business in order to assess the requirement for changes to the capital structure to meet the said objective. As part of this monitoring, the management considers the cost of capital and the risks associated with each class of capital and makes adjustments to the capital structure, where appropriate, in light of changes in economic conditions and the risk characteristics of the underlying assets. The funding requirement is met through a combination of equity, internal accruals, borrowings or undertake other restructuring activities as appropriate.

No changes were made in the objectives, policies or processes during the year ended 31st March 2020.

b. Financial Risk Management Framework

Company's principal financial liabilities comprise borrowings, trade payables and Other financial liabilities. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include Investments, Trade receivables, loans, cash and bank balances and other financial assets.

Risk Exposures and Responses

The Company is exposed to market risk, credit risk and liquidity risk. The Board of Directors reviews policies for managing each of these risks, which are summarised below.

i) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk i.e. interest rate risk, currency risk, and Commodity risk.

Interest rate risk

The Company obtains financing through borrowings. The Company's policy is to obtain the most favourable interest rates available.

The Company's exposure to interest rate risk relates primarily to interest bearing financial liabilities. Interest rate risk is managed by the company on an on-going basis with the primary objective of limiting the extent to which interest expense could be affected by an adverse movement in interest rates.

Sensitivity Analysis

An increase / decrease of 100 basis points in interest rate at the end of the reporting period for the variable financial instruments would (decrease) / increase profit before tax for the year by the amounts shown below. This analysis assumes all other variables remain constant.

Commodity Risk

The company has commodity price risk, primarily related to the purchases of Steel and Aluminium. However, the company do not bear significant exposure to earnings risk, as such changes are included in the rate-recovery mechanisms with the customers.

ii. Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The company is exposed to credit risk from its operating activities (primarily for trade and other receivables), including short-term deposits with banks, and other financial assets.

Credit risk management

Credit risk is the risk of financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The company is mainly exposed to credit risk from credit sales. At 31st March 2020, the company has trade receivables of ₹ 5,260.19 Lakhs and ₹ 6,229.88 Lakhs as on 31st March 2019.

The company is exposed to credit risk in respect of these balances such that, if one or more customers encounter financial difficulties, this could materially and adversely affect the company's financial results. The company attempts to mitigate credit risk by assessing the credit worthiness of customers and closely monitoring payment history.

Greater than 91days	1,064.05	999.42
	<u>5,260.19</u>	<u>6,229.88</u>

There have been no material impairments to trade or other receivables in the two years included within these financial statements and no indication of enhanced customer credit risk.

Credit risk on cash and cash equivalents is considered to be minimal as the counterparties are all substantial banks with high credit ratings.

The Directors are unaware of any factors affecting the recoverability of outstanding balances at 31st March 2020, and consequently no material provisions are required for bad and doubtful debts.

42. FAIR VALUE MEASUREMENTS

(i) Fair value hierarchy

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three Levels of a fair value hierarchy. The three Levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (prices) or indirectly (derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data.

(ii) Financial assets measured at fair value through Other Comprehensive Income (FVTOCI)
